Touching People... Changing Lives

FROM THE PRESIDENT

When I sit to write this Annual Letter as President of the BPA, I am amazed and wonderstruck and sometimes shocked by the speed with which the BPA is growing from year to year. I visit the BPA three to four times a week and every time I visit I see that there is so much activity going on in the BPA headquarters or the 15 campuses spread across and the three eye hospitals that the BPA runs. What I see is that from education, training and vocational training we have gone so much ahead. We have reached the villages and people with disabilities in remote areas. We are providing them self employment at the door step thanks to the corporates like Mafatlal, Samsara, Inductotherm..I have no words with which to thank them. Whenever I see people with disabilities working their way up in sports and winning medals in all kinds of sports like football, table-tennis, cricket, athletics, I am so humbled that the BPA has come such a long way in promoting sports. Some of the persons we have sponsored are now Government Officers with lakhs of rupees in their bank accounts received from prize money. This is what makes me truly proud that persons who came to us without any training and without much economic support are now able to support themselves and other people .

Our work is growing at tremendous speed. Everyday new buildings like the Smt. Bellaben and Shri Yogeshbhai Eye Hospital is coming up in Vatrak, the Sheth Jamnabhai Bhagubhai School of Optometry Building in Bareja. On the BPA main campus, the fifth floor dedicated to a wonderful conference centre sponsored by Montecarlo Limited.

I as your President feel very proud to present this report and I take this opportunity to welcome you to BPA and specially invite you to our path breaking and innovative initiative "Vision-in-the-Dark".

Rajendra Shah

President, BPA

SAYING THANKS...

We start this letter with a big thanks to the Almighty for looking after our staff and our institute in Covid times and helping us to recover after that.

We begin this year by expanding our vision centres to an amazing number 13 with two centres being added -one in Unava and one in Nakhatrana. We also inaugurated one vocational training centre in Nadiad to add to our centre in Piplag. We also inaugurated our fifth Tanya Computer Centre in Valsad. Hundreds of persons with disabilities have been benefited by the addition of the centres and people in the adjoining areas have benefited due to the vision centres. For the first time in history, our Tanya Computer Centre course participants could get certification from the Polytechnic in Ahmedabad and this was a big feather in BPA's cap. The CBID Course run with the help of University of Melbourne and Rehabilitation Council of India was a hit and all our students passed with flying colours. The second batch of the CBID course is right now going on.

We were successful in launching the Handika EV Tricycle with three models which will help people with disabilities to move around easily, without any strain. Shri Mukesh Oza, Chairperson Samsara Group visited the Campus and promised to increase his CSR contribution to giving 1008 sewing machines to 1008 women with disabilities and also sponsoring a Day Care Centre in Jodhpur, Rajasthan. This is a contribution of more than a crore rupees. Mafatlal Group, Inductotherm, HDFC our other large contributors who help us to help the needy, also deserve our special thanks along with all our supporters big and small.

While our para table tennis players have been trotting around the globe and winning more and more medals, now our blind football players, girls and boys have already proved their prowess and are likely to participate in an international tournament in the very near future.

Soon our organization shall have a new a bigger center at Jodhpur, Palanpur, Puneet Dham near Mahudi and at Unava, Gandhinagar. BPA is always at the forefront of technology, innovation, progress, growth and expansion thanks to the support of the community, donors and well wishers.

MAFATAL PROJECTS

People with profound mental illness and people with intellectual disabilities find it very difficult to show case their abilities and skills due to social stigma and lack of acceptance by the families and by society. Navin Fluorine International Limited of the Mafatal Group rose to this challenge of ensuring that these people got an opportunity to prove their talents. BPA applied for a project for covering these people and Navin Fluorine very generously donated funds under CSR for covering 90 people in three blocks of Gujarat- Thasra, Deesa and Limbdi. Full-fledged vocational training centres are running at these three places, medicines are given, people with mental illness are helped to get psychotherapy and counselling. Many of them have started contributing to their family finances and are now much better accepted by society. A new lease of life is given by Navin Fluorine International Limited.

Self-Employment Projects:

Majority of people with disabilities of interior rural areas are engaged in domestic work but have no support to start earning a livelihood to become self-sufficient. It is far more difficult in cases of people with disabilities residing in tribal belts & hilly areas. The project is enabling such people to earn their livelihood through need based assistance. The trades or type of self-employment kit is decided on the basis of interaction with individual and families. Ultimately, this will break the stereotyped image of 'burden' and enable them to become a 'contributing member' of the family. The community will recognize their potential and accept them as equal citizens.

During 2022-23, we have given self-employment kits to 216 under Self-employment Project and 221 kits under Additional Self-employment project funded by Navin Fluorine International Ltd under CSR. We have distributed variety of self-employment kits such as agriculture kits, beauty parlor kits, sewing machines, tea making kits and petty shops to people with disabilities. These kits were selected on the basis of their skills and experience. These kits were distributed in Dahod, Dang, Tapi, Surat, Valsad and Patdi- Surendranagar districts. Our team conducted several assessment camps and identified potential candidates for self-employment. People have already started their business and we have started receiving positive feedback and stories.

MAFATLAL PROJECTS

Soft Skill Development Project for Women with Visual Impairment

Women with visual impairment are far more vulnerable even within the group of women with disabilities. Henceforth, it is necessary to equip and empower them so that they can protect their rights and raise collective voices against discrimination. The first step towards empowerment is independent living and the Soft Skill Development project focuses on making trainees independent in moving around, grooming, cooking, home making etc. Moreover, the training also covers topics such as legal awareness, computer training, verbal communication, health and hygiene to enhance their leadership qualities.

During this year, we have trained 100 girls with visual impairment under the project. The trainees come from different parts of Gujarat. It also includes girls with visual impairment who have recently started losing sight and need adjustment training. We have observed the transformation of girls from a 'timid girl' to a 'confident lady' after undergoing intensive training. Navin Fluorine International Limited of the Mafatlal Group has supported this project under CSR.

Early Childhood Education Services

The Project starts with early identification of children with disabilities followed by early intervention services which enabled children with multiple disabilities to learn skills to become independent. The children thereafter are prepared for mainstream education programmes. 80 children from Ahmedabad, Deesa and Kapadwanj in the age group 3-10 years are provided training in eating, toileting, play, therapy academics and also provided therapeutic intervention for independent living. Navin Fluorine International Limited of the Mafatlal Group has supported this project under CSR.

TECHNOLOGY ROOM(LIGHT BOX)

BPA has set up a Technology Room also called the Light Box with the help of the Union Bank of India. When you come out of the Vision in the Dark, this room proves that there is light at the end of the darkness. The Room has a display of the various teaching learning materials and aids which can help a person with visual impairment. Notable is the technology that can help a person to operate a computer, surf the net, answer competitive exams. There are also games of logic and reasoning of different difficulty levels.

Charity Shop

Charity Shop is very unique idea of Blind People's Association. BPA requests citizens, business houses of Ahmedabad city to donate their discarded items such as electrical items, furniture, clothes, toys, and books, used computers, vehicles to Blind People's Association. BPA repairs these items, and uses the same within the 16 campuses of BPA. BPA also raises funds through sale of these items for education, and training of people with disabilities. The Charity Shop is in the BPA main campus. The charity collection drives are also organized to collect the discarded items which are in good condition.

BPA C.S Samariya Charity Shop is a unique concept of collecting usable but old household items donated by shops, businesses and households.

**What might be worthless to you,
May be Priceless to us..**

જેઓ આપણી સાથે કદમ મીલાવવા ઉત્સુક છે તેવા પ્રજ્ઞાયક્ષુ, બધિરાંધ અને દિવ્યાંગની વિકાસ યાત્રામાં આપ પણ સહયોગ કરી શકો છો.

**Give us your discards &
