FROM THE PRESIDENT

BPA is at the forefront of innovations, new projects and growth thanks to the support of the community, donors, well-wishers and society at large. support of the community, donors, well-wishers and society at large.

This year Samsara group came in and promised support to our ambitious new Project of Hostel-cum-Skilling centre at out campus in Vastrapur. Mukesh Oza, the CEO and his group were present for the stone laying. Tushar Shah and Sara Zion have contributed for the Mental Health Centre at Vatrak and Yogeshbhai Patel for the Rehabilitation Centre at Bareja. The coming year will see the initiation of construction of these Projects.

I am most happy when BPA reaches out to children with multiple disabilities in remote rural areas.

The year witnessed the inauguration and strengthening of new rehabilitation centres and day care facilities for children and persons with disabilities in partnership with philanthropic organizations, hospitals, government bodies, and community stakeholders. These centres are helping individuals receive therapeutic care, education, training, and rehabilitation services closer to their homes. We started centres at Vijapur, Lunawada, Naroda, Dhoraji, Modasa and Idar during the year. The centres were made possible with the help of our trustees like Rohitbhai Shah, who arranged the Vijapur centre; Shri Shaileshbhai Patwari who helped us with the Naroda Centre; Prafulbhai Vyas for Dhoraji; Samta Vikas Charitable Trust for Modasa and the Bavan Patidar Samaj for Lunavada. I am very happy and proud that all our Day Care Centres have been given for use to us totally free of charge by dedicated community members.

The Centre at Detroj donated by my family has expanded during the year and I am very happy to inform you that we have started construction and we will soon have a vision centre on the same campus.

On the national and international front, BPA strengthened collaborations with experts, institutions, and organizations working in the disability sector. Conferences, training programmes, webinars, and professional exchanges enabled sharing of knowledge and best practices in rehabilitation, mobility, education, accessibility, and inclusion.

Women empowerment remained an important focus area during the year. BPA organized training programmes and leadership initiatives for women with disabilities, helping them gain confidence, vocational skills, and greater participation in society. I am now looking forward to the International Conference on Mobility that the BPA will organize from 18 - 20th November 2026.

Warm regards,
Rajendra Shah
President, Blind People's Association (BPA)

SAYING THANKS

Dear Friends and Supporters,

Dear Sir/Madam,

Greetings from Blind People's Association (BPA).

It gives us immense pleasure to share with you a brief overview of the activities and achievements of BPA during the year 2025–26. Over the decades, BPA has continued its commitment towards empowerment, rehabilitation, education, healthcare, and inclusion of persons with disabilities, especially persons with multiple disability in remote rural areas. The year 2025–26 has been marked by expansion, innovation, and deeper community engagement across multiple sectors.

During the year, BPA continued to provide comprehensive educational services to children and youth with visual impairment and multiple disabilities through its schools, vocational training centres, hostels, rehabilitation programmes, and inclusive education initiatives. Hundreds of students benefited from quality education, assistive technology training, digital literacy, mobility training, life skills development, and career guidance.

One of the important highlights of the year was the strengthening of healthcare and prevention initiatives related to blindness. BPA organized several eye screening camps, awareness programmes, and school eye check-up drives in rural and urban communities. BPA also continued its efforts towards promoting eye donation awareness and strengthening rehabilitation support for persons with vision loss.

BPA continued to actively promote sports, mobility, and independent living skills for persons with visual impairment. Sports training activities, orientation and mobility programmes, and leadership development initiatives helped build confidence, independence, and social participation among beneficiaries. BPA also initiated efforts towards development of larger accessible sports infrastructure for persons with visual impairment and other disabilities.

The organization also continued to work extensively in livelihood promotion and vocational rehabilitation through skill development programmes, self-employment support, placement assistance, and entrepreneurship guidance for persons with disabilities.

Samsara Group, Mafatlal Group, Madison Resource Foundation, Aavas , Astral Foundation, Azim Premji Foundation, INDIGO, Zen Marketing; Yogeshbhai Patel of USA, Tushar and Sara Zion of USA have helped in the rehabilitation of hundreds of our disabled persons. The Seva Foundation, USA; Sightsavers; Mission for Vision, Inductotherm, Samsara, have helped to strengthen our eye care services by providing equipment, eye surgeries and capacity building.

These achievements would not have been possible without the continued support of donors, well-wishers, volunteers, institutions, government departments, and community partners. On behalf of BPA, I extend my heartfelt gratitude to all those who have stood with us in our mission of creating an inclusive and dignified society for persons with disabilities.

We look forward to your continued guidance and support in the years ahead.

LAUNCH

AZIM PREMJI FOUNDATION PROJECT LAUNCHED

The project, "Comprehensive Rehabilitation Services through Community-Based Rehabilitation (CBR) Model for Persons with Disabilities and Homeless People," is a three-year initiative of the BPA funded by Azim Premji Foundation. It aims to empower persons with disabilities across 30 villages of Detroj–Rampura Taluka through a hybrid model combining centre-based, home-based, and community-based rehabilitation services. The project provides therapeutic interventions, functional education, life-skills training, assistive devices, vocational support, and access to government entitlements, while strengthening parents and community stakeholders. It particularly focuses on children with complex disabilities who have limited access to rehabilitation services in rural areas. Alongside disability rehabilitation, the project reaches homeless families in Ahmedabad with healthcare, education, nutrition, hygiene awareness, government entitlements, and linkages with shelter homes. Through partnerships with government departments, local institutions, families, and communities, the project seeks to promote independence, inclusion, dignity, and improved quality of life for vulnerable populations.

The three-year project, supported by the Azim Premji Foundation (APF) with a grant of ₹1.62 crore, aims to empower persons with disabilities across 30 villages of Detroj–Rampura Taluka and support homeless communities in Ahmedabad. The project adopts a combination of centre-based, home-based, and Community-Based Rehabilitation (CBR) approaches, providing therapy, education, life-skills training, vocational support, government entitlements, healthcare, and community awareness. Through collaboration with families, communities, and government systems, the project aims to promote independence, inclusion, dignity, and improved quality of life among persons with disabilities and homeless people.

Community Based Rehabilitation for Persons with Severe Mental Disorders

Rasilaben Makwana (25), from Chiroda village, developed schizophrenia at the age of 20 was chained at her house. Following ineffective faith-based treatments, stigma, wandering behaviour, and physical abuse, our Mental Health Team conducted repeated home visits, counselled the family, and linked her to psychiatric treatment. After one year of regular medication and follow-up, she recovered significantly, resumed agricultural work, and received a livelihood support kit. She is now leading a stable life with her family, demonstrating the transformative impact of community-based mental healthcare. Through this programme, many individuals like Rashilaben have regained hope, dignity, and independence.
Integrated Services:
The programme which receives monetary support from the Department of Mental Health Government of Gujarat combined community surveys, home-based follow-up, psychiatric referrals, medication adherence support, family counselling, disability certification, Niramaya enrolment, assistive devices, self-employment support, awareness campaigns, sports participation, and convergence with government welfare schemes. Special initiatives included vocational rehabilitation, festival celebrations, community exhibitions, and disability inclusion activities, ensuring holistic recovery and social reintegration.

Other CSR Support

A Heartfelt Thank You to Our CSR Partners

As we look back on the year, we are filled with deep gratitude to our valued CSR partners listed above for their generous and meaningful support to the Blind People's Association.

Their partnership has gone far beyond financial assistance. It has helped restore sight, create opportunities, strengthen independence, and restore dignity to persons with disabilities.

Because of their support, individuals who once faced barriers and uncertainty have been able to see again, access rehabilitation and assistive services, acquire skills, pursue livelihoods, and participate more fully in their families and communities. For many, this has meant moving from dependence to independence, from exclusion to participation, and from vulnerability to confidence.

Every contribution has carried a human story—a person whose sight was restored, a person with a disability who found the means to earn a livelihood, a family that regained hope, and an individual who discovered the confidence to live with greater dignity and self-reliance. The CSR commitment has therefore not simply funded programmes; it has invested in human potential and transformed lives.

We sincerely thank them for believing in our mission, standing beside us, and making inclusive development possible. We look forward to strengthening this partnership and reaching many more people together in the years ahead.

We thank our CSR partners for helping us turn support into opportunity, opportunity into empowerment, and empowerment into dignity.

During the year 2025-26, we have received the following CSR funds to distribute self-employment support & assistive devices to people with disabilities:

TECHNOLOGY MUSEUM (LIGHT BOX)

BPA has set up a Technology Room also called the Light Box with the help of the Union Bank of India. When you come out of the Vision in the Dark, this room proves that there is light at the end of the darkness. The Room has a display of the various teaching learning materials and aids which can help a person with visiual impairment. Notable is the technolohy that can help a person to operate a computer, surf the net, answer competitive exams. There are also games of logic nad reasonong of different difficulty levels.

Light Box Developed Pro bono by: Architect Mehul Bhatt

TOUCH MUSEUM AND HEROES MUSEUM

Imagine the thrill when a small blind child touches the Taj Mahal ! The BPA has setup 2 tactile museums which have models of famous wonders of the World and of the heroes in history. Persons who are visually impaired can explore through their fingers and widen their knowledge. BPA invites all to visit these museum and see how you can enjoy the world through your senses.

Charity Shop

Charity Shop is very unique idea of Blind People’s Association. BPA requests citizens, business houses of Ahmedabad city to donate their discarded items such as electrical items, furniture, clothes, toys, and books, used computers, vehicles to Blind People’s Association. BPA repairs these items, and uses the same within the 16 campuses of BPA. BPA also raises funds through sale of these items for education, and training of people with disabilities. The Charity Shop is in the BPA main campus. The charity collection drives are also organized to collect the discarded items which are in good condition from residential apartments, offices and other places.

BPA C.S Samariya Charity Shop is a unique concept of collecting usable but old household items donated by shops, businesses and households.

It is easy to make money,

A lot tougher to make a difference..

We help you make that difference..

What might be worthless to you,

May be Priceless to us..

જેઓ આપણી સાથે કદમ મીલાવવા ઉત્સુક છે
તેવા પ્રજ્ઞાચક્ષુ, બધિરાંધ અને દિવ્યાંગની વિકાસ યાત્રામાં
આપ પણ સહયોગ કરી શકો છો.

Give us your discards & we’ll use them to light up lives..

અમે વાપરીશું એને રંગસભર કરવા એક જીંદગી
તમે ભૅલે સમજો જેને ચીજ નકામી
